Electroventure

What a valorous experience we all get, when the protagonist of our favourite sci-fi movie does audacious tasks, - designing a complex gadgetry with a venturesome team, limited capital and winning gambles with high risks, fascinating right?

Team ISTE provides a riveting platform, Electroventure to line such experiences again in a technical atmosphere along with your friend.

General Rules

A team consisting of 2 participants can participate in this game.

- Round 1 -
 - In this round the interested teams have to attend a pen-paper test consisting of 20 questions. Top scoring 15 teams will be selected to continue for further levels. The points will be given to the teams in form of virtual currency (p-bucks).
- Round 2-
 - In this round, a common problem statement will be given to all the teams, and they will be asked to buy the circuit components (whatever they think is needed to make that circuit), by exchanging p-bucks. They will be further asked to make the circuit in the given period of time.

Judging Criteria

1. Correct working circuit.
2. P-Bucks left with them.
3. Time taken.

Prize

A cash prize of 1000/- will be awarded to the winning team!
